### Description

- High-top safety shoe.
- Black, water-repellent pull-up leather.
- Thickness: 2.0 mm.
- Breathable, open-cell 3D mesh lining.
- STRESS OUT SYSTEM quilted tongue makes walking more comfortable by not putting pressure on the instep.
- AIR TOE ALUMINIUM toecap.
- SAVE & FLEX PLUS puncture resistant, "zero-millimetre", metal-free midsole.
- POLYSOFT removable, anatomical, sweat-reducing insole.
- Insole preformed to accommodate the morphology of the foot on the injected PU support.
- Abrasion-resistant, antistatic, lightweight and flexible PU/PU outsole.
- Slip resistance rating (SRC) in compliance with EN ISO 20345 standard.

The combination of these technologies evacuates heat and moisture to keep the foot cool and dry.

### Standard

- EN ISO 20345 : 2011 S3 SRC
