

SOUND'ULTRA C

P702LGD

SNR 36dB Detectable Disposable Earplugs

Benefits

- Anatomical shape
- Blue color adapted to food-processing industry jobs
- Optimum comfort thanks to the soft slow expanding PU foam

Use

- Very noisy working environment
- Ideal for food-processing industry

Packaging

- Pair wrapped individually
- Bag of 200 pairs

Size	Code
One size	65 838 257

Description

- Soft and hypoallergenic disposable earplugs
- Detectable stainless steel ball bearing located in the earplug stem
- Detectable cord made of PVC/metal
- Non-porous polyurethane foam resistant to dirt
- Conical shape for easy fit
- Ideal for very noisy working environments (SNR 36)

Standards

- Complies with European standards EN 352-2:2020

SNR	H	M	L
36dB	36dB	33dB	32dB

- SNR = Average attenuation index (Single Number Rating)
- H = High-frequency attenuation value
- M = Medium-frequency attenuation value
- L = Low-frequency attenuation value
