## 25 YEARS OF COMMITMENT TO PROTECTING PROFESSIONALS

✔ **A quarter of a century on, and we still hold the same belief:** behind every piece of Personal Protective Equipment (PPE), there is a person, a profession and a responsibility.

✔ For OPSIAL, protection is not just about meeting a standard. It is about anticipating risks, guaranteeing reliability, improving comfort and offering long-term support to those who work every day in demanding environments.

**For 25 years, OPSIAL's mission has been to provide all professionals with access to reliable, high-quality PPE.**

### 25 YEARS OF COLLECTIVE SUCCESS

- ✔ These 25 years **have been marked by challenges overcome, projects carried out with determination, committed teams and trusted partners.** They tell the story of a brand that evolves, adapts and progresses, without ever compromising its values.
- ✔ OPSIAL is a collective story. It is the story of passionate men and women who, every day, build, protect, support and advance the standards of their profession.
- ✔ Attentive to the field, changing needs and customer feedback, this collective intelligence — fuelled by close proximity and constant attention to technological advances — drives the daily development of the OPSIAL brand.

### A SUSTAINABLE APPROACH TO PROGRESS

## OPSIAL GREENER TOGETHER

The OPSIAL GREENER TOGETHER initiative was launched in 2021, driven by a group of committed employees who recognised the need **to implement concrete eco-design measures.** Since then, OPSIAL has continued to enrich and expand this initiative, thereby strengthening its environmental and social commitment.

Initially focused on reducing the impact of packaging, the initiative has gradually expanded to cover **all aspects of the product life cycle.**

As it celebrates its 25th anniversary, OPSIAL is more determined than ever to act sustainably, responsibly and ambitiously.

## OPSIAL Highlights
